Fortech Inc. launches Ultimate Solution for efficiently managing Rebate Programs

TEMPE, AZ -- Fortech Software Consulting, Inc. announces the introduction of **"ForTrack™"** leveraging its unique Energy/Hydro Utility Operations & software expertise along with its proprietary line of other Automated Solutions. ForTrack™ is a client-customizable web-based enterprise solution designed for efficiently managing multiple Rebate Programs for Water Savings, Gas, Alternative energy, Carbon Management and Power or Energy Efficiency Programs.

According to **Bhasker Rao, Ph.D., C.E.O** of Fortech Software Consulting Inc., of Tempe AZ, ""Utility companies, cities, municipalities and 3rd party rebate processing agencies with multiple Rebate Programs could find a great value in ForTrack™ for easy management of rebates. ForTrack™ can be effectively used to manage the complete Rebate Lifecycle—creating multiple rebate programs, processing enrolments and applications, generating inspection orders thru the final step of rebate processing/payments."

Key features of **ForTrack™** include:

- Create new Rebate programs under user-defined categories. Can easily add documents (such as rebate info, along with "how to" videos, etc)
- Multiple Client/User/Vendor Levels with definable Access privileges.
- Export/import data from/to 3rd party or legacy systems
- Setup custom rebate calculator for various rebate programs
- Admin can Generate work orders, approve Inspection Reports & approve Rebate payments either thru web-interface or thru Excel while customers can track their "rebate status" at all stages
- Configure new Excel Spreadsheets than need to be imported into the system thru built-in field mapping techniques
- Provide various after sales support thru built-in e-mail marketing or blogs

ForTrack™ is available both as a **Product** as well as a **Hosted Service.** This solution would also provide means to eliminate excel spreadsheets or integrate data from existing spreadsheets, ensuring a greater ROI. Fortech offers a comprehensive suite of world-class energy enterprise software designed to transform utility business processes and seamlessly automate their business processes.
