

Fortech Inc. launches Smart Grid offerings, C.E.O Bhasker Rao looking for partners.

TEMPE, AZ -- Fortech Software Consulting, Inc. announces the introduction of its **Smart Grid offerings** leveraging its unique Energy/Hydro Operations & software expertise along with its proprietary line of other Automated Solutions. Fortech's Smart Grid solutions will enable customers to address all aspects of the "Smart Grid" and transform businesses to better respond and manage upcoming challenges of the energy business. Fortech's SmartGrid solutions & Services are specifically designed & engineered to connect customers, power companies, cities/municipalities with the intelligent grid. Apart from standard products Fortech also offers custom application development, implementation and integration services.

According to **Bhasker Rao, Ph.D., C.E.O** of Fortech Software Consulting Inc., of Tempe AZ, "Energy companies, cities, municipalities could find a great value in our Smart Grid solutions & Services by being better prepared to face the Smart Grid requirements. These offerings are not only flexible but also scalable thus meeting the future needs of businesses". He also stated that in addition to its own proprietary solutions, Fortech is also able to offer its customers end-to-end SmartGrid solutions thru strategic partnerships worldwide.

Key Smart Grid solutions and services offered by Fortech include but not limited to:

- Demand Side Management
- Transmission Management
- Network Security / NERC CIP compliance
- Generation Management/Energy Load Forecast
- Outage Management
- Distribution Management System
- Meter Data Management
- SCADA
- SmartGrid strategy planning & design
- SmartGrid Architecture Consulting
- Project feasibility Consulting

Fortech's Smart Grid solutions provide the scalability, performance, and the security needed thus addressing the end to end Smart Grid requirements of the customers. Fortech offers a comprehensive suite of world-class energy enterprise software designed to transform energy business processes and seamlessly automate their business processes.
